

RFID UHF Cable Tie

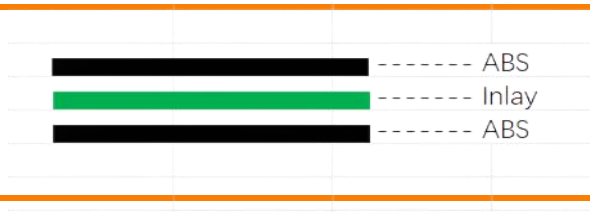

Description

The RFID nylon cable zip tie tags are especially suited for securing, serialization, tracking & identification, of products in the areas of resource management, electrical inspection, inventory, distribution and rental services as well as for easy management of maintenance and repair routines. RFID nylon cable zip tie tags are based on standard RFID technology and can be encapsulated with LF 125KHz, HF 13.56MHz or UHF 860-960MHz antenna. We supply different kinds of RFID cable tie tags such as silicone cable tie tags, plastic cable tie tags, PP cable tie tags, etc.

Parameters

Chip Options	Alien H3/H4/ Impinj M4/M5/ I-Code SLIX, Ntag213, Ultralight EV1, Mifare 1K, etc.
Size Options	282x79x28mm or customized
Frequency	13.56MHz/ 860-960MHz
Surface Material	ABS/ Nylon/ PC
Reading range	0-5m(depends on the reader and antenna)
Memory	144byte,1Kbyte,128byte, etc.
Application	Gas cylinder tracking, Asset management, Baggage tagging & Pipes, cables, shackles and lifting equipment, etc.
Product Craft	Serial No./ Barcode/ UID number, etc.
